

A Tribute To Ricky Couch

by Jerel Wolfe

God has given me many blessings in my life, but none greater than being able to share friendship and brotherhood with Ricky "Tricko" Couch. He taught me to recognize the skill and hard work of other modelers, and in turn improve my own skills. Ricky was quick to pass along his talent with words of encouragement and a large smile when you completed the task at hand. He was a Master Model Builder, but even a greater "Master of Giving." Ricky gave so many people inspiration, love, hugs, laughs and just a great feeling for having known him. Even in his last hours he taught us what it is like to be a loving husband, brother to some and a caring friend to hundreds. May our memories of Ricky live on in our hearts forever. We have set up a web site in memory of Ricky: www.RickyCouch.com
